

3rd Annual International Conference on the Contemporary Management of Prostate Cancer

**SATURDAY, MARCH 24th
WALT DISNEY DOLPHIN HOTEL
ORLANDO, FLORIDA
8:00AM-3:00 PM**

MENS HEALTH MATTERS!

250,000 men develop prostate cancer each year. It is the most common cancer in America and remains the number two cancer killer in men, second only to lung cancer. Fortunately, with early detection and recent advances in treatment, most men are cured of this disease and maintain an excellent quality of life.

Physicians in Winter Park Cancer Center, the Florida Radiation Oncology Group, and Orlando Physician Specialist in conjunction with leading Urologists, developed this conference to answer frequently asked questions about the detection, diagnosis, and treatment of men with prostate cancer.

An expert international faculty has been assembled to discuss the newest advances in treatment for both local and systemic disease.

We have arranged for Primary Care Physicians to sit with their Urologist and Radiation Oncologist colleagues during the conference.

A CONFERENCE FOR ALL PRIMARY CARE PROVIDERS AND CANCER SPECIALISTS

BY AN INTERNATIONAL PANEL OF UROLOGISTS AND RADIATION ONCOLOGISTS

8 hours of AMA Category 1 CME credits as well as 8 hours of AOA Category 1B Credits.

6 HOURS OF FREE CME at DISNEY
